HTML

Details

Use this sample accessibility statement to help you write a statement for your own public sector website or mobile app. Some of the wording is legally required, so make sure you include that in your statement.

This sample statement is based on the model accessibility statement (https://www.gov.uk/guidance/model-accessibility-statement), which sets out what

information you have to put in an accessibility statement - and our own research into what's useful to disabled website users.

Publishing an accessibility statement is one of the things public sector organisations must do to meet the requirements of accessibility regulations (https://www.gov.uk/guidance/accessibility-requirements-for-public-sector-websites-and-apps).
